August 17, 1978

Santa Rosa, California 95401

Dear

This letter is written with regard to the Center's investigations in the case of your father, \_\_\_\_\_. You will be interested to know that his remains were returned to Chapel of the Chimes, Santa Rosa, California for inurnment in the \_\_\_\_\_ memorial niche by the director, J. W. Carrothers.

Although numerous measurements were made prior to reburial, a considerable length of time is required for the completion of analyses and interpretation of the results.

Thank you for allowing us this opportunity to advance our research on the long-term skeletal effects of the internal deposition of radioactive materials.

Sincerely yours,

A. F. Stehney  
Associate Director  
Center for Human Radiobiology
